BEAVER TOWNSHIP FIRE DEPARTMENT SMOKE ALARM INITIATIVE (One Free Smoke Detector for Each Private Household)

We are convinced that working smoke alarms are the single most important appliance in the home because they have been proven to save lives. The requirements for receiving a free smoke alarm are: You must live in the Beaver Township and show proof of residency. You must be a homeowner and living in that home (not rental property). The Department will provide One Smoke Alarm Free to each requesting household (address). Please note that landlords and renters are not eligible for this program. Smoke detector is free upon first request. Once the detector needs new batteries or replacing, the homeowner is responsible for procuring new devices and/or batteries, but installation services remain free of charge.

I NEED ASSISTANCE IN SMOKE DETECTOR INSTALLATION.

BEST DAY AND TIME TO ASSIST: _____

***** Please Note: The Beaver Township Fire Department will make every effort deliver the smoke alarm at the requested date and time. The units assigned to install your smoke alarms will call 30 minutes to an hour prior to your requested time to insure that the resident is home. However, if the unit scheduled to install the alarm receives an emergency call, they must respond to the emergency first. This means that they may run late or not make the scheduled time. Once the emergency is over they will call to reschedule.*****
